I likewise plan and actualize **Salesforce Marketing Cloud** arrangements in a *customer-facing* role and execute the Marketing Cloud Email application.

Salesforce Pardot (certified) in accompanying zones:
email marketing best practices, message design, subscriber and data management, inbox delivery, email automation, marketing automation, tracking and reporting metrics, and external integrations with the Marketing Cloud Email application.

Working knowledge **Salesforce Marketing Cloud** (Studios):
- Advertising Studio
- Audience Studio
- Data Studio
- Datorama
- Email Studio
- Google Analytics 360
- Interaction Studio
- Journey Builder
- Mobile Studio
- Social Studio

I create **In-App messages** and **push notifications**, and I make **Interactive Pages in CloudPage**. I use **AMP for Email and AMPscript**, just like using **HTML and CSS in AMP**, even **AMP with AMPscript or GTL**.

I am having a working knowledge of the **Google Analytics 360 integration in Marketing Cloud** and I use **Social Customer Service** and the **Service Console** properly. I am also having a working knowledge of:
- Service Cloud Voice
- Salesforce Call Center
- Embedded Service SDK for Mobile Apps
- Building a Hello World App for iOS and for Android
- Using AppExchange
- Making Customer Service Convenient with SMS
- Adding Campaign Marketplace
- Connecting Marketing Cloud with Salesforce CRM *(Sales Cloud & Service Cloud)*
- Field Mapping *(capturing and mapping data)*
- Working with Contact Builder and Marketing Cloud Connect
- Handling the REST APIs and SOAP APIs

I also create **Price Books** to track products, I create and **relate a Contract to an Opportunity** and use the power of **Journey Builder** and **Distribution Marketing**. I am used to marketing intelligence to grow business. I have also a working knowledge of **Experience Cloud** and **Health Cloud**.
